

AI CERTIFICATE & PROFESSIONAL CERTIFICATION PROGRAMS

Learn AI. Work Smarter. Build the Future.

AI2026A1

AI2026B1

AI2026C1

Three career-oriented pathways | 3-4 months | Offline + Online | Weekend / Evening

AI2026A1

Certificate in Generative AI and Smart Digital Productivity

AI tools and smart productivity for 12th-pass students

Eligibility: 12th Pass (Any Stream)

Fee (GGV / External): ₹3,500 / ₹9,000

Start with AI, prompt engineering, content creation, design, media, no-code tools, freelancing and future AI careers.

AI2026B1

Professional Certificate in AI Productivity and Digital Transformation

AI tools for pursuing graduate studies

Eligibility: Students across Commerce, Arts, Agriculture, Science, Education, Pharmacy, Management, Engineering, CS/IT, AI/DS and related fields

Fee (GGV / External): ₹3,500 / ₹9,000

Use AI for research, documentation, analytics, business workflows, marketing, automation, industry applications and responsible AI.

AI2026C1

Executive Certification in Enterprise AI and Intelligent Automation

AI tools for office productivity and enterprise automation

Eligibility: Working professionals, faculty members, office staff, entrepreneurs and managers

Fee (GGV / External): ₹3,500 / ₹9,000

Develop enterprise AI skills across automation, analytics, customer systems, marketing, multi-agent AI, cloud, governance and future enterprises.

COMMON ACADEMIC HIGHLIGHTS

80	60%	40%	PROJECT
Contact / learning sessions	Minimum attendance	Minimum aggregate for certification	Assignments + practicals + final evaluation

AI2026A1		Certificate in Generative AI and Smart Digital Productivity AI Tools and Smart Productivity for 12th-Pass Students	
DURATION 3-4 Months	MODE Offline + Online	SCHEDULE Weekend / Evening	CERTIFICATION On successful completion

WHO CAN JOIN

12th Pass (Any Stream)

COURSE FEE GGV Students / Staff: ₹3,500 External Participants: ₹9,000	WHAT YOU WILL BUILD • Build AI-assisted productivity and communication skills. • Create text, images, videos, presentations and digital content with AI tools. • Build a digital portfolio and understand freelancing opportunities. • Learn responsible, ethical and practical AI usage.
--	--

PROGRAM MODULES

Module 1: Introduction to Artificial Intelligence Fundamentals of AI; evolution of AI; Generative AI overview; AI in daily life; ethics and responsible usage. 8 hours	Module 6: AI Voice and Audio Systems AI voice generation, AI music systems, podcast automation, AI audio editing, speech-to-text. 8 hours
Module 2: AI Chatbots and Smart Assistants ChatGPT, Gemini, AI question answering, prompt engineering basics, AI productivity assistance. 8 hours	Module 7: AI Productivity Tools AI scheduling, note generation, PDF summarization, AI search systems, smart office tools. 8 hours
Module 3: AI Content Creation AI text generation, email writing, resume building, blog writing, storytelling systems. 8 hours	Module 8: No-Code AI Applications AI website builders, no-code AI platforms, chatbots, automation basics, drag-and-drop systems. 8 hours
Module 4: AI Design and Presentation Tools Canva AI, Gamma AI, Tome AI, AI poster design, smart presentation systems. 8 hours	Module 9: AI for Freelancing and Digital Careers AI for YouTube/Instagram, content monetization, digital branding, freelancing platforms. 8 hours
Module 5: AI Image and Video Generation AI image creation, video editing, avatar videos, social media content, AI marketing basics. 8 hours	Module 10: Future AI Careers and Entrepreneurship AI startup opportunities, entrepreneurship, career guidance, responsible AI, future intelligent systems. 8 hours

AI2026B1

Professional Certificate in AI Productivity and Digital Transformation

AI Tools for Pursuing Graduate Studies

DURATION
3-4 Months**MODE**
Offline + Online**SCHEDULE**
Weekend / Evening**CERTIFICATION**
On successful completion

WHO CAN JOIN

Students from Commerce, Arts, Agriculture, Science, Education, Pharmacy, Management, Civil, Mechanical, Biotechnology, Electrical, Electronics, Computer Science, IT, AI, ML, Data Science and related fields.

COURSE FEE

GGV Students / Staff: ₹3,500

External Participants: ₹9,000

WHAT YOU WILL BUILD • Apply AI across non-technical and technical academic disciplines.

- Improve research, reporting, communication and productivity using AI systems.
- Learn analytics, dashboards, workflow automation and no-code development.
- Understand responsible AI, privacy, fairness and security in practice.

PROGRAM MODULES

Module 1: Foundations of AI

Introduction to AI, intelligent systems, AI applications across domains, AI productivity ecosystem, safety basics.

8 hours

Module 6: AI Marketing and Branding

Advertisement systems, branding, social media automation, content systems, marketing analytics.

8 hours

Module 2: Prompt Engineering and AI Communication

Prompt writing, conversational AI, documentation, translation systems, query optimization.

8 hours

Module 7: Workflow Automation

AI workflow systems, automation platforms, triggers, API integrations, enterprise automation.

8 hours

Module 3: AI Research and Academic Productivity

Literature review, citation systems, summarization, presentation systems, knowledge extraction.

8 hours

Module 8: AI for Industry Applications

AI in healthcare, agriculture, education, finance and management.

8 hours

Module 4: AI for Business Productivity

AI office systems, communication automation, scheduling, email systems, task automation.

8 hours

Module 9: No-Code AI Development

AI chatbots, website builders, CRM systems, AI dashboards, automation platforms.

8 hours

Module 5: AI Analytics and Dashboards

AI-powered Excel, intelligent dashboards, visualization, business intelligence, AI reporting.

8 hours

Module 10: Ethical and Responsible AI

AI governance, privacy, fairness, security and future AI trends.

8 hours

AI2026C1		Executive Certification in Enterprise AI and Intelligent Automation AI Tools for Office Productivity and Enterprise Automation	
DURATION	MODE	SCHEDULE	CERTIFICATION
3-4 Months	Offline + Online	Weekend / Evening	On successful completion

WHO CAN JOIN

Working Professionals, Faculty Members, Office Staff, Entrepreneurs and Managers

COURSE FEE GGV Students / Staff: ₹3,500 External Participants: ₹9,000	WHAT YOU WILL BUILD • Automate office communication, reporting and recurring workflows. • Develop AI-powered dashboards, decision support and customer systems. • Explore Agentic AI, multi-agent collaboration, cloud AI and enterprise platforms. • Build secure, ethical, privacy-aware and scalable AI deployment practices.
--	---

PROGRAM MODULES

Module 1: Enterprise AI Ecosystem Enterprise AI systems, AI transformation, intelligent organizations, collaboration platforms, productivity engineering. 8 hours	Module 6: AI Marketing and Branding Automation Campaign systems, presentation automation, branding, social media automation, advertisement systems. 8 hours
Module 2: AI Office Automation Email automation, documentation systems, scheduling, meeting intelligence, AI office assistants. 8 hours	Module 7: Multi-Agent AI Systems Agentic AI, multi-agent collaboration, autonomous systems, decision pipelines, intelligent orchestration. 8 hours
Module 3: Workflow Automation Engineering Workflow automation, API integrations, AI triggers/actions, enterprise pipelines, monitoring systems. 8 hours	Module 8: Cloud AI and Enterprise Platforms Cloud-based AI, deployment, enterprise dashboards, integrations, monitoring. 8 hours
Module 4: AI Analytics and Business Intelligence AI dashboards, KPI systems, AI reporting, predictive analytics, intelligent insights. 8 hours	Module 9: AI Governance and Security AI governance, compliance, cybersecurity, privacy preservation, risk management. 8 hours
Module 5: AI Communication and Customer Systems AI chatbots, CRM systems, customer support, NLP systems, collaboration tools. 8 hours	Module 10: Future Intelligent Enterprises Industry 5.0, autonomous digital employees, human-AI collaboration, sustainable AI, future enterprise automation. 8 hours

PROGRAM INFORMATION

Practical details for participants and institutions

DELIVERY & ASSESSMENT• Programs comprise 80 lectures/contact sessions including theory, demonstrations, hands-on practice, tutorials, project guidance and assessment support.

- Classes may be offline, online or blended, preferably on weekends or evenings.
- Continuous assessment may include assignments, practical tasks, quizzes, projects/case studies, online tests and offline tests.
- Final certification may include written/online assessment, practical demonstration, project presentation and/or viva.
- Minimum 60% attendance is required to be eligible for the final certification examination.
- Minimum 40% aggregate marks are required in the prescribed assessment and final examination.

CERTIFICATION & CONDUCT• Certificates are issued only after successful completion of assessments and mandatory assignments/projects.

- Participants must follow university discipline, cyber-security, data privacy, intellectual-property and responsible-AI requirements.
- Unfair means, impersonation, plagiarism, fabrication of project work and unethical use of AI may lead to disqualification.
- Institutional software accounts, licence keys, datasets, lab credentials and enterprise information must not be shared without authorisation.
- AI-generated content must be verified for accuracy, originality, copyright, confidentiality, bias and ethical compliance before use.

WHY THESE PROGRAMS

PRACTICAL Hands-on exposure to current AI tools and workflows.	CAREER FOCUS Skills mapped to productivity, study, freelancing and enterprise needs.	FLEXIBLE Offline + online delivery with weekend / evening scheduling.
PROJECT-DRIVEN Assignments, practical work, projects and final evaluation.	RESPONSIBLE AI Ethics, privacy, fairness, security and responsible use.	MULTI-LEVEL Pathways for students, graduates and working professionals.
